SUBJECT INDEX

A

ABSORPTION
columns, calculation methods 259
heat transfer 273
hydrogen, nickel 196
oxygen, coal, kinetics 37
palladium 107

ABSORPTION COOLING
Mollier diagram 267
steam in air conditioning 267
vapor by solute valence change 300

ACETYLENE. See also Hydrocarbons
analysis, chromatographic 271
costs 289
detection, by hydration to carbonyl 93
from methane, in plasma jet 106, 161
from methane, electric spark 160, 161
future demands 291
polymerization and oxidation 199
production, 265-million pounds 160
pyrolysis 11
pyrolysis, shock wave 11, 85
quench system, pyrolysis products 136
reduced pressure 290

ADSORPTION. See also Catalysts; Chemisorption
hydrogen, nickel 46, 196
isotherms, nitrogen, benzene and hexane on carbons 106
montmorillonites, intercalated for hydrocarbons 119
multimolecular, pressure range 170
theory 247

AMERICAN GAS ASSOCIATION
Committee on Gas Requirements and Supply 201

AIR CONDITIONING. See also Heat Pump
central unit, room-by-room control 175
convention hall, Chicago 40
cost accounting, gas air conditioner *vs* electric 164
gas engine prime movers 267
heat and mass transfer 296
heat gain, ARI load 164
humidity measurement 296
industrial, proper design 190
marketing policies for expansion 97
Mollier diagram 267
natural gas engine drive 111, 141
natural gas fueled 141
peripheral systems, *vs* unshaded window area 15
refrigeration systems 293
sales records, indicated for 1962 229
special tools 296
steam use 267

AIR DRYING
desiccant dryers 303

AIR POLLUTION. See also Dust; Individual Contaminant Compounds
aldehydes, catalytic combustion of 279
air quality, standardization 64
and noise abatement 37
Bessemer emissions, smoke reduction 87
chromatographic analysis, difficulties 44
domestic oil heat, smoke reduction 218
Florida, survey 87
flue gas studies, oil-fired, methods 40
fogs, growth of drops 219
foundry industry, increased study 111
fume removal, scrubbing by boric oxide 141
gas fuels 218
Great Britain progress, 1950-1960 15
instruments, in electric plants 219
Los Angeles refinery emissions 64
mists, nucleation theory 227
mists, stabilization and evaporation 227
oil fuel 201
photoelectric nucleus counter, for C formation 64
prevention, refinery activities 64
recorder, contaminants 21
scrubbers, plastic 293
smoke density observation 294
smoke reduction, gas fueled airport 88
SO_2 removal, absorbents 64
state laws, digest 73
survey, Minnesota 63
technical progress report, final year of Foundation 112
titrilog SO_2 study, in helicopters 63
venting systems 18

Aerosols
aqueous nucleation 219
electrokinetic effects, theory 219
glass fiber filters 164
kinetics 227
sampling 21

Auto Exhaust
byproducts 13
California standards, analyses and control 1
catalytic oxidation 218
catalytic reduction 87
engine blowby data 87
hydrocarbons measurement 64
noncatalytic combustion 87
photochemistry, polluted air 40
regulation, olefins in gasoline, Los Angeles 64
relation to fuel composition 111
review, analysis 1959-60 118
standards, based on CO content 63

Dust
collection, steam power plants 141
determination 22
reduction, foundry operation 141
removal, by silicone fabric filters 141
removal, electrostatic 165

Incinerators
flue fed, problems 141
standards and design 51
tests of fuel types 218

ALLOY CATALYSTS
sodium-potassium 11

ALLOYS

Corrosion Resistant
hot gases 298
nickel 91
nickel-chromium 91
selection 223

Sulfide Resistant
high chromium content 115
stainless steels 115
tempering *vs* coldworking 298

AMMONIA
production, plant capacity 202
production, use of oxygen 291
recovery, vapor processing methods 36
transportation, refrigerated barge 184
ultraviolet absorption spectrum 120
vapor-liquid equilibrium 94
vapor pressures, ammonia and copper (II) sulfate solutions 120
viscosity, from critical properties 120

AMMONIA LIQUOR
as grass larvicide 263
Great Britain, fertilizer use 185

ANALYTICAL INSTRUMENTS. See also Electron Microscope; Emission Spectrograph; Chromatography; Infrared Spectra; Mass Spectrometer; X-ray Methods
distillation point monitors, plant stream, comparison 196
electrolytic apparatus, hydrogen determination 298
field apparatus, sulfur dioxide determination 272
fiber optics 299
field emission microscope 17
gas detectors 177
mass spectrometer 271
monitors and controllers 296
pressure transducers, variable-reluctance 273
thermistor thermometer 273
thermometric titrator 298
thermosiphon 246
viscometer calibration constant 24
viscometers, electric 272

volumenometer, mercury, for solids 225
x-ray diffractometer 299

ANALYTICAL METHODS
accuracy, evaluation 118
definitions, ASTM, accuracy and precision 118
identification of carbon electrodes 46
precision, evaluation 118
statistics, analysis of data 118
thermal conductivity, gases 299
titration 271
volumetric determination, aluminum and nickel in Raney nickel 299

ANNEALING
furnace for alloy steels 40
use of town gas 41

APPLIANCES. See also Air Conditioning; Burners; Cookers; Dryers; Heaters; Incinerators; Pilot Lights; Refrigerators
development 1
dishwasher 73, 267
dryer, domestic, heat control 268
dryer, domestic, sales gain, 1960 49
foreign production, consumption and trade 73
Great Britain, laundry, sales 1948-60 190
heating, 1960 sales 49
heating, design for effective heat exchange 64
incinerator 269
safety in installation 177
sales down, 1960; upturn, 1961 26
testing, butane-air 267
water heaters 41

AQUIFERS
glycols, inhibitors against hydrates 154
hydrocarbon hydrates 288

AROMATICS. See also Benzene; Naphthalene
coal based, production methods 61
controllable surplus in 1962 136
dealkylation, for benzene and naphthalene 160, 214
petroleum based 1, 36, 107, 149, 202
reaction rates, chlorination 303
stripping, from gas 286
sulfur removal by acid washing 107, 214
sulfur removal from benzene, thiophene and CS_2 11

AUTOMATION. See also Compressor Stations; Telemetering
absorption columns, calculation methods 259
and controls, 50-well SACROC unit, Texas 79
chromatographic instruments 269
communications 259
compressor station, Mc Arthur, Ohio Fuel 155

pipeline, 1929 construction, seven remote-control stations 19
pipeline stations, advance in 1960 104
pneumatic systems 19
power units, plant operations 41
program for integration 140
system, Peoples Gas Co. Pittsburgh 182
transmission equipment, 2 companies 211

Control
gas and coke plant, power units 19
high-pressure natural gas, lower Austria 132

B

BENZENE. See also Aromatics
composition, benzole 288

BURNERS. See also Flame Research; Ignition; Pilot lights
cookers, range 16, 219, 240, 293
flame research 293
flame research, aeration, secondary, recirculation prevention 16
industrial 240
LPG, with preheating coil 165
oil, gear-pump driven 15
porous combustion, ceramic insert grids 88
porous plate, power 190
pulsation suppressor 141
swirl-port, helical channel 165
testing, butane-air 267
thermoelectric generators 293
tunnel, ignition and control 15
tunnel, noise study 15
wall, for soaking pit 219

Design
air-heater, flue assembly 40
application 65
double-chamber, stamped sheet 40
ejector, method of computing 112
flame deflector, U-slot 40
instability limits 15
multiple tube, for heating appliances 88
sheet metal strips, for burner parts 15

BUTANE. See also Paraffins
alkylation unit, Clarkson, Ontario 214
decomposition, Hg photosensitized 276
methyl radicals, rate constants 276

C

CALORIFIC VALUE
calculation, from gas composition 118

CANADIAN PIPELINES
construction, statistics 286
construction, terrain 286

CARBON
electrochemistry, electrode behavior 46
oxidation kinetics 83
reaction mechanisms, with oxygen 94
structural, for corrosive conditions 115

CARBON BLACK
production from hydrocarbons 288
properties and structure 107

CARBON DIOXIDE
determination, conductometric 44
determination, titration, improved end point with enzyme 146

Chemical Removal
ammonia, zeolite bed 210
catacarb process, description 32
diethanolamine, agitated absorption 56
Giammarco process 210
hot potassium carbonate 284
scrubbing, organic solvent 259

Physical Removal
chilling 32
Fluor solvent 132

CARBON DISULFIDE
British retort process 237

CARBON MONOXIDE
combustion, effect of SO_2 36
energy, electron states 22
infrared spectrum 246
production 237
recovery from ammonia synthesis 214, 291

Removal
ammonia synthesis gas 214
catalytic conversion 181
copper scrubbing, with ethylene byproduct 79
Sulzer detoxification process 79
town gas in Britain 136

CARBONIZATION
Britain, review and prospects 36

CARBONYL SULFIDE
preparation, in amine medium 215
removal, alkali bed 258
removal, gas purification, effects 210

CATALYSIS. See also Fischer-Tropsch; Hydrogenation
acid sites, surface by NH_3 adsorption 169
correlations, classification by types 215
cracking, vanadium poisoning 215
engineering aspects, solid catalysts 169
manufactured gas 289
oxidation 237
packed and fluidized beds, mass transfer 275

replacement costs, static beds 215
selection and evaluation, approach 61
surface and particle size calculations 262

CATALYSTS
aliphatic amine 263
alumina, in H exchange 262
ammonia synthesis 237
cobalt adsorption, effect of CO 160
hopcalite, oxidation 262
iron, carbon-expanded 137
iron surfaces 169
nickel, CO chemisorption and poisoning, infrared spectra 107, 160
nickel, hydrogenation, ethylene 136
nickel, nickel oxide, polymerization 291
nickel, Raney, adsorption 46
nickel-silica, chemisorption 215
palladium, activators in hydrogenation 262
palladium complex, olefins 291
platinum, reforming processes 83, 288
vanadate salts, hydrogen sulfide removal 285

CATHODIC PROTECTION. See also Coatings; Corrosion; Piping; Plastics
aluminum piping 223
anode studies 67, 91, 194, 223, 297
corrosion 20, 43, 223, 244, 297
economics, company experience 20
installation, truck-mounted, boom hung earth auger 63
interference with railroad signal currents 116
mechanism and definition 92
pipe in casing; possible damage 43
pipelines old, criteria for application 92
polarization techniques 298
steel, in field liquids 116, 223
supplement to water treating 20
tankers 245
test taps for electrical tests 43
theory, deep ground bed 43, 67
theory, galvanic materials, balanced areas 67
theory, pipe-to-soil potential 223
training program, gas company 194
underwater tanks 20
well casings, in Hugoton and Panhandle fields 168
world survey, protected lines and savings 194

CERAMICS
refractory materials, furnaces 300
firebrick insulation, cost reduction 21

CHANGEOVER
Boston, 4½-month project 39
winter installations

CHEMICAL ANALYSIS
Raney nickel 299

CHEMICAL INTERMEDIATES
propylene oxide 291

CHROMATOGRAPHY. See also Analytical Instruments
adsorption, analytical accuracy 21, 68
adsorption, hydrocarbons 272
apparatus, improved, Paris gas system 44
column design 246

Construction

Alaska, bay crossing 10, 27, 133
Alberta, California, progress 183, 235, 286
aluminum pipe, field test 58
backfilling, protective shield 212
beveling tool 58
Canada, activity 174, 286
cost accounting 26, 286
damage by contractor 292
equipment and tools, survey 81, 134
highway crossings, split casing 271
improved field techniques 4
1961 decline 286
pipe alloys—columbium steel 260
river crossing, bridge, Arkansas 134, 157, 212
river crossing, trench 10, 59, 81, 157, 183, 212, 259
road boring, trunkline 212
stringing by helicopter 58
submarine 34, 58, 151
submarine, Mediterranean 180
techniques, efficiency and bidding 127
Uinta Basin, to Salt Lake 105
winter operations 235

Description

Alberta to San Francisco, features 212
Colorado to California, approval 27
Comecon and Trans-Siberian oil lines, USSR 75
Hassi R'Mel to coast 3
Lacq (France) to major markets 26
LPG and propane 285
Pemex, Yucatan to Mexico City, 24-in. 10

Design

Africa-France 259
Alberta, California, design and layout 52
construction costs 151
corrosion prevention 20
long-distance, development stages 10, 58, 134, 183

Services Available to GAS ABSTRACTS Readers

Photocopies

Photocopies of all articles abstracted in *Gas Abstracts*, except those enumerated here, are available from the Institute at cost:*

1) Russian Articles.—Abstracts are obtained from services specializing in this field. English translations can be supplied by arrangement with the appropriate abstractor.
2) U.S. Patents.—Printed copies can be secured at 25 cents each (remittance with order) from the Commissioner of Patents, Washington 25, D.C.
3) Books, Special Reports.—When a price is given in the abstract, these should be secured from a bookdealer or the publisher; when stated *free*, from the publisher.

Types of Photocopies

Depending on the "tightness" of the binding (which determines whether pages can be laid flat without breaking the binding), and the color of the paper and ink used in the original being copied, photocopies may take any of several forms:

1. Positive paper prints made by the reflex process.
2. Positive paper prints enlarged by xerography from microfilm negatives.
3. Negative photostats.
4. Positive photostats.

Choice of the method used must necessarily rest with the Institute. All photocopies are approximately the same size as the original material.

Cost of Service

The photocopy service charge is:

First 5 pages or fraction thereof of one article in one issue $1.50

Each subsequent 4 pages or fraction thereof of the above one article in the same issue.....$1.00

Invoices are rendered to the Institute's Members and Contributors only; payment in advance is required of others.

The Institute may, at its option, fill orders from non-Members and non-Contributors without payment in advance, but an additional charge of $1.00 to cover billing costs will be made on each such order.

Microfilm

Microfilm copies of articles abstracted in *Gas Abstracts* are likewise available at cost.* The material is photographed on 35 mm unperforated negative film at 5¢ per page, with a minimum of 50 pages, $2.50, per order. Invoices are rendered to the Institute's Members and Contributors only; payment in advance is required of others.

The Institute may, at its option, fill orders from non-Members and non-Contributors without payment in advance, but an additional charge of $1.00 to cover billing costs will be made on each such order.

Bibliographies and Literature Searches

The library will prepare bibliographies and make literature searches on a cost basis plus a service charge. A comprehensive statement detailing the problem must be presented with the request.

Gas Abstracts on Cards

The abstracts in each monthly issue are also printed individually on 5 x 8-inch cards. Each card bears at its top the author and subject headings under which it may be filed. As many copies of each card are supplied as there are headings on that card, enabling filing of the abstract under all of its headings, eliminating cross-indexing.

The annual subscription to *Gas Abstracts on Cards*, a mailing of 500-1000 cards each month, is $120.00 to U. S. addresses, $150.00 foreign.

Since the printing order for cards is based on the current number of subscribers, a subscription for this service commences with the month in which the order is received. Back numbers of *Gas Abstracts on Cards* are not available.

Back Numbers of Gas Abstracts

In response to an increasing number of requests from utilities, colleges, and technical libraries which have only recently learned of the reference value of *Gas Abstracts*, the Institute has taken steps to make available single numbers, volumes, or complete files of this publication to date, starting with Vols. 1 (1945) and 2 (1946), some numbers of which are out of print.

The latter numbers are reproduced by a photoprinting process from copies in the Institute's libraries, and Vols. 1 and 2 can now be purchased at $35 per volume, unbound; single monthly numbers are offered at $3 each.

Vols. 3 to date are available at current subscription prices, $18 per volume to U. S. addresses, $22 foreign. Monthly numbers are $2 each.

---

*In requesting and accepting photocopies or microfilm copies, the applicant agrees to the following:

1. The applicant desires this duplication solely for use in lieu of loan or manual transcription. Responsibility for questions of copyright that might arise in this copying, and in the use of the copies, is assumed by the applicant.

2. The applicant understands that the Institute does not sell the photocopies, but merely performs the service of copying at the applicant's request; the fee paid is exclusively for such service and is established on the basis of no profit to the Institute.

3. The Institute reserves the right at its own discretion to decline to make photocopies requested, or to limit the number of copies, within the principle of fair use of copyrighted material.
